

A project funded by the NT Government through the Animal Welfare Grant

Charles Darwin University Sea Turtle Rehabilitation Centre

A fit for purpose facility to house recuperating sea turtles of the NT

We acknowledge with thanks the Northern Territory Government's Department of Primary Industry and Resources for the financial support to establish this facility.

We acknowledge and thank the generous in-kind support of Charles Darwin University, AusTurtle Inc., NT Parks and Wildlife, Sea Darwin, Australian Marine Conservation Society and The Ark Animal Hospital.

These organisations have donated considerable resources and support to the goal of returning rehabilitated sick and injured sea turtles to the wild.
